ABOUT US.....

The Rhode Island Youth Super Liga, LLC, (RIYSL), “the Super Liga”, is an independent league made up of competitive level teams from southern New England area including Connecticut, Massachusetts, and Rhode Island. Each year as many as 900 teams and nearly 40 local youth soccer organizations participate in our programs. Our girls, boys, and co-ed teams range in age from 8 through 20 years old. The Super Liga is a proud sanctioned league of Soccer Rhode Island, United States Youth Soccer and the United State Soccer Federation.

The “Super Liga” conducts activities for two seasons each calendar year. The **Spring League** which runs generally from March through June, and the **Fall Tournament** which occurs in September and October.

Our slogan..... “The Youth Soccer Experience”, encompasses our philosophy of providing a fun-fill and competitive environment for all the teams participating in all our Super Liga competitions. We look to all our coaches, parents and spectators to help us provide “The Youth Soccer Experience” to all our players. We also promote the game of soccer through education, activities, and competition.

Many of our off-field activities include the New England Revolution Super Liga Night, coaching clinics, skills soccer challenge, and awards banquets, which reinforces our mission to further the interest of players, parents, coaches, and administrators in the game of soccer. We hope the end result of participation in our programs improves the skills, knowledge, and love of the sport, of our players.

SafeSoccer Goals

SOCCER GOAL SAFETY is one of SUPER LIGA's top priorities for all Super Liga games and training sessions.

All associations, coaches, referees and parents should take the utmost attention in monitoring that all Soccer Goals are properly anchored prior to, during and after, every training session and game, which will prevent them from collapsing onto any player.

Everyone should take responsibility, especially the home team, to assure that all soccer goals are anchored.

If a referee, coach, parent or an association official discover that a soccer goal is not properly anchored, the home team must take immediate action and anchor the goal properly.

NO SUPER LIGA GAME WILL BE PLAYED IF A SOCCER GOAL IS NOT PROPERLY ANCHORED.

Any association violating this safety rule will be subject to disciplinary measures.

We look to all of you for your cooperation and support in assuring a safe place for our children to play the game of soccer.

WARNING

ALWAYS ANCHOR GOAL.

Unsecured goal can fall over
causing serious injury or death.

- For all players 11 and 12 years old, head ball training will be limited to a maximum of 30 minutes per week with no more than 15-20 headers per player, per week.

In addition to the safety initiatives, the following modified playing rule will be implemented:

- When a player deliberately heads the ball in a game, an indirect free kick (IFK) will be awarded to the opposing team from the spot of the offense. If the deliberate header occurs within the goal area, the indirect free kick will be taken on the goal area line closest to where the deliberate head ball infringement occurred. If a player does not deliberately head the ball, then play should continue.

HEAD TRAUMA POLICY

Any head trauma can be a serious health condition which may result in a player having a concussion.

The proper procedure for the head trauma policy occurring during “Super Liga” games is:

1. The Referee stops the game because a player experiences some type of head trauma and cannot continue to play.
2. The Referee notifies the player and coach that they have determined a head trauma has occurred.
3. The player is removed from the game and not allowed to return.
4. The Referee notes the player’s name and writes a detailed explanation of the circumstance that resulted in the injury on the physical game report.
5. Following the game the Referee submits their game report into the Assigned By Super Liga online system.
6. The league sends out a notification to the association/club and coach that a head trauma injury occurred to one of their players.
7. The association/club and coach acknowledges receipt of the notification and contacts the player and parents notifying them that the player cannot resume activities in the league until they have received a medical release from a health care provider.
8. The Player receives a medical release.
9. The Association sends a copy of the medical release to the league.
10. The League acknowledges receipt of the medical release and releases the player to resume league activities.

(Continued on Next Page)

LAW 5 - THE REFEREE (CONTINUED)

- Verify the identity of all players and coaches using approved passes. After the verification process the referee will return the passes back to the coach. The referee will not allow anyone to play or coach without a pass, and any player who does not appear on the game day approved roster. Any person with a current coach's pass will be allowed to coach any team. If due to unusual circumstances, ALL players' and coaches' passes are not available for the entire team prior to the start of the game, the coach will have until the end of the game to produce the passes. If the passes are not presented at the end of the game, that team will forfeit the game and incur fines.

The physical game report is to be signed by both coaches after the conclusion of the game. The referee is required to keep all game reports and its corresponding game day team rosters for the entire season. At the end of the season the referees will be informed to dispense with all the game reports and game day team rosters. Failure for a referee to enter the game report on Assign By Super Liga within 24 hours of the completion of the game, will result in the referee being denied the right to officiate future RIYSL games.

(Continued on Next Page)

LAW 5 - THE REFEREE (CONTINUED)

- Decide cancellations of games due to unsafe local conditions, such as foul weather or other unacceptable playing conditions. The decision shall be entirely at the discretion of the referee without any interference from coaches, players or spectators. - RIYSL may assign other responsibilities to the home team as it deems appropriate.

GAME CHANGE PROCEDURE

The Game Change Procedure is used by coaches to change the date, time, and field of any scheduled game. The only method used to do this is the game change online system located on the RIYSL website, www.thesuperliga.com. There are two distinct time periods when game changes are allowed. The first is during the pre-competition game change period, which occurs immediately after the preliminary schedule is distributed. The second is during the competition when unplayable conditions occur due to weather, or on a rare occasion when social activities result in at least half of the team being unavailable. Game changes requests, because of social activities, are closely monitored and subject to being rejected by the league. Extreme caution must be used when requesting this type of game change.

The game change process.

1. A coach (requesting coach) emails the opposing coach requesting a particular game change (date, time, or field).
2. The field coordinator for the location where the game is being played is contacted to be sure they are aware of any change, and to be sure no conflict exists with the field.
3. After agreement on the change, the requesting coach enters the game into the game change online system. The game change is now in **PROPOSED** status.
4. The opposing coach receives an email, from the system, informing them that the game change was entered into the system and that action is required on their part.
5. The opposing coach agrees to the change in the system. The game change is now in **PENDING** status.
6. The field coordinator for the location where the game is being played receives an automated email informing them that action on this game change is required.
7. The field coordinator reviews the game change online and verifies no conflict exists with the game change and approves the change. The game change is in **APPROVED** status and is completed.
