SUPER LIGA COACHING PATHWAYS

Coach development is a lifelong journey and is embraced by those who understand the importance of being empowered with knowledge, information, and wisdom. It is in this spirit that a coaching pathway has been formulated in a realistic and easy to follow way for The Super Liga coaching community. Three pathways have been created- one for grassroots level coach, one for those coaching senior level players, and the last for those who coach senior level advanced players.

Understanding that folks who coach are primarily volunteers and have busy personal and professional lives, an easily accessible and cost friendly approach has been formulated where you'll see a predominance of on-line content. Note that there is nothing like the live version of coaching education courses and at every opportunity, coaches should partake in those experiences. Each of these coaching pathways are designated with a unique Super Liga badge which confirms the coach's successful completion of each level.

To offer some perspective as to what US Soccer mandates relative to their coaching pathway, note the following.-

SUPER LIGA COACHING PATHWAYS

The courses must be taken sequentially. They can be taken on-line or in a live setting which is always preferred. It is advised that once a course is completed, the coach take an appropriate amount of time to digest, implement, and learn from both successes and failures of said implementation. Collaboration with a fellow coach always makes the journey more enjoyable and The Super Liga DOCE is always available for support. It is strongly suggested that coaches research complimentary content from the United Soccer Coaches Resource Library and MA Youth Soccer which has a substantial amount of training sessions available for download. And always remember...have fun!
