BUILD OUT LINES

The build out line promotes playing the ball out of the back in a less pressured setting.

- When the goalkeeper has the ball in his or her hands during play from the opponent, the opposing team must move behind the build out line until the ball is put into play.
- Once the opposing team is behind the build out line, the goalkeeper can pass, throw or roll the ball into play (punts and drop kicks are not allowed).

9U-10U PLAYING FORMAT AND RULES

BUILD OUT LINES

- After the ball is put into play by the goalkeeper, the opposing team can cross the build out line and play resumes as normal.
- The opposing team must also move behind the build out line during a goal kick until the ball is put into play.
- If a goalkeeper punts or drop kicks the ball, an indirect free kick should be awarded to the opposing team from the spot of the offense.
- If the punt or drop kick occurs within the goal area, the indirect free kick should be taken on the goal area line parallel to the goal line at the nearest point to where the infringement occurred.

9U-10U PLAYING FORMAT AND RULES

BUILD OUT LINES

- The build out line will also be used to denote where offside offenses can be called. Players cannot be penalized for an offside offense between the halfway line and the build out line. Players can be penalized for an offside offense between the build out line and the goal line .
- Ideally, the goalkeeper will wait to put the ball into play once all opponents are past the build out line. However, the goalkeeper can put the ball into play sooner.
